FACT SHEET - PERU

ELORO RESOURCES LTD. is an exploration and mine development company that holds a 100% interest in the 80 km² La Victoria Gold/Silver Project in Peru's North-Central Mineral Belt. Eloro just announced an Option Agreement whereby Cott Oil and Gas can earn a 25% interest in the La Victoria Project by expending \$5 Million by July 31, 2018.

Eloro has recently completed a surface exploration program of deposit-scale mapping, infill geophysics, and regional sampling so as to qualify previously reported exploration results as relevant to a bulk-tonnage heap-leach deposit model.

The La Victoria Project has excellent infrastructure with easy road access, abundant water and an industrial power corridor some 4.3 km from the site. The project is within 50 km of several large low-cost producing mines including: the Tahoe Resources Inc.'s La Arena & Shahuindo gold deposits; Barrick Gold's Lagunas Norte (Alto Chicama) gold deposit and past-producing Pierina gold deposit; and, the Santa Rosa gold-copper mine, owned by Compañía Minera Aurífera Santa Rosa (COMARSA).
